OSHM CAST & OSHM SPLINT ARE **UNIQUES**

OSHM CAST Features ▶

• ONE-STEP SOLUTION ALL IN ONE

OSHM CAST offers greater patient satisfaction and better benefits to physicians & health institutions : [Economical and Simple (Easy) Application → Rapid adpatation of technique → Application in 3~10 minutes/patient & Daily patient care (14~17) in less than 2.5 hrs. → Solid Profitability]

• SIMPLE APPLICATION EASY, LIGHT, QUICK & SAFE

CAST & SKIN PROTECTOR IN A SINGLE KIT, and for its great elasticity and materials, needs little water. Fast and simple (easy) to mold adapting to the body anatomy, with **TOTAL CONTACT**. Lightweight and safe for patients, does not require an electric saw but a simple cutter for the removal.

• 3D MESH SOLID DESIGN BETTER HYGIENE & SOLIDITY

Specially woven with special materials, OSHM CAST's solid and safe tubular design, with superior ventilation and passage of water, allows patients to bathe. Its design prevents the greenhouse effect for a better and faster rehabilitation.

• UNIQUE & ECOLOGICAL WITHOUT COMPETITION

Healing materials without rivals for being unique and innovative, composed of materials which provides better post-use ecological treatment. It offers a **New Business Model [in Medical Devices Market]**, with new technology that maximizes the creation of common benefits.

OSHM SPLINT Features ▶

OUTSTANDING ELASTICITY, LIGHT & COMFORTABLE
UNIQUE with elastic features. The elasticity before setting allows to form anatomical splints in less time, such as on elbow or wrist, without folds for better comfort. Its light weight provides comfortable use.

ECONOMIC, EFFICIENT & ECOLOGICAL
 Thanks to its features, **OSHM SPLINT** is more economical, efficient and faster in patient treatment. It requires very little water and provides better post-use ecological treatment. The application is more efficient because it is softer than the fiberglass splint.

SIMPLE & SAFE APPLICATION
 Its flexible material and design absorbs impacts to avoid breakages and injuries providing greater speed and safety during application. Safe for its flexible material and design that absorbs impacts prevents breakage and injuries. The best option for emergency care.

OSHM CAST & OSHM SPLINT are **ESSENTIAL** in **Emergency** that requires correct treatment and constant use in prevention of medical complications, for its economy, simplicity and accelerated treatment that provides **Total Contact**, to minimize pain and improper movement in difficult emergency situations.
